MATERIAL SAFETY DATA SHEET

Relative to 22 tons Sodium Sulphate Anhydrous shipped to Messrs. B&P TRADE LTD. 16 - 18 "Rusaliiski prohod" Str. entr.A, floor 3, app.9 1407 Sofia Bulgaria per truck, we hereby confirm that our material carries the following characteristics.

1. CHEMICAL AND PHYSICAL ANALYSIS

CAS Number: [7757-82-6]	
Na ₂ SO ₄ as Sodium Sulphate	99.5 pct
NaCl	max.0.3 pct
Fe	max.10 ppm
Ph	6.0-8.0
Moisture	max. 0.3 pct
Bulk Density	1.3-1.5 kg/ltr
Water Insolubles	max. 0.1 pct
Appearance	Free Flowing White Powder Freely Soluble in water

2. No danger possibility during transport, storing, handling and consumption.
3. Not flammable, corrosive and radioactive
4. No danger possibility in case direct touch with human skin.
5. In case of touch with the skin, sodium sulphate particles can easily be removed by washing with ordinary water.
6. Sodium Sulphate Anhydrous is used as a main raw material of hand washing detergents.
